

FACILITATING INTERNATIONAL CUSTOMS PLANNING AND CLEARANCE  
WITH RESPECT TO CUSTOMS CLEARANCE

5

ABSTRACT

Facilitating customs planning and clearance including creating in an international  
customs server, in response to a signal communicated through a client device coupled  
10 for data communications through at least one internet connection to the international  
customs server, a customs planning record; creating, in dependence upon the customs  
planning record, a customs declaration form for a destination country; and submitting  
the customs declaration form to a customs declaration forms database for the  
destination country.
